

CABO VERDE'S PORTS OF THE FUTURE

Subconcession of Port Services

INVITATION TO PARTICIPATE IN THE PUBLIC CONSULTATION

The Grantor, the State of Cabo Verde, intends, through the Concessionaire, ENAPOR, S.A., to sub-concession port services in all 9 of the country's Ports, by means of an International Tender Limited by Prior Qualification.

As the tender documents to be launched for this purpose are being prepared, the government has decided to hold a public consultation prior to the launch of the pre-contractual procedure, with a view to interacting with Cabo Verde residents and the diaspora, development partners, companies, experts, potential stakeholders and any citizen of the world, in order to gather comments and contributions on the port services sub-concession process.

The public consultation runs from March 11 to April 10, 2024, until 12 noon (local time), as shown in the "Public Consultation" menu at www.subconcession.enapor.cv

The results of the public consultation may allow the government to make any adjustments to the port services sub-concession strategy and to increase the transparency of the process.

The State of Cape Verde counts on your participation and contribution to transparency, the success of the sub-concession and the development of Cabo Verde.
